ABOUT THE REGION

QUALITY INNOVATION SUSTAINABILITY COMMUNITY

Long Island wine demonstrates the deep, seasonal connection held between land and table.

Local products and a dedication to boosting agriculture highlight a decades-long relationship between what we grow and what we eat and drink.

Food, wine, culture, and craft: It's all here in our backyard.

Long Island extends east from New York City, ending in the towns of Orient, to the north, and Montauk, to the south—the easternmost point in the state of NY.

At the island's tip, the land splits into the North and South Forks, abutting the Long Island Sound and Atlantic Ocean. Long Island boasts three distinct

American Viticultural Areas (or A.V.A.s), two of which were established in the 1980s.

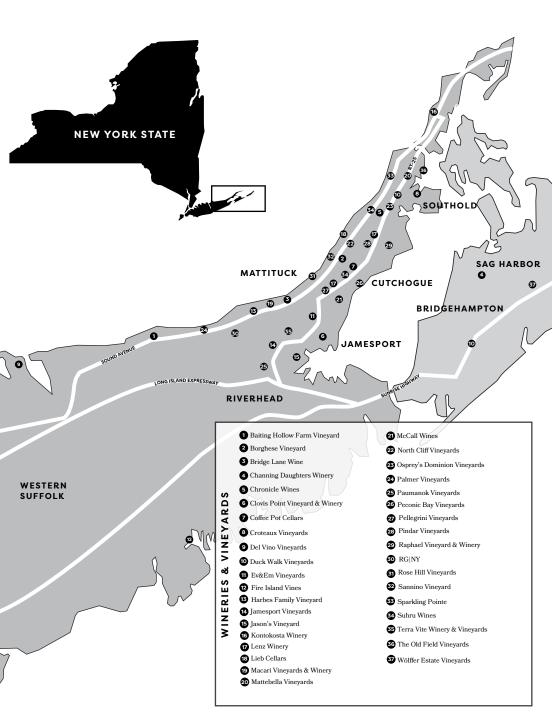

Long Island is a diverse winegrowing region producing exciting, high-quality wines. The region's cool maritime climate is hospitable to a wide range of grape varieties.

Wines from Long Island tend to be restrained, intense in aroma, and crisp.
